Gas Systems

PulaLift Pole Tool

Essential accessory for a Spit Pula 700E user installing overhead.

For Mechanical and Electrical contractors the challenge of fixing overhead is one faced everyday. Now, with the Spit PulaLift Pole Tool, the need for hop ups and platforms is eliminated, making the Spit PulaLift an essential accessory for any Spit Pula user installing overhead.

The Spit Pula 700E tool can be quickly and effortlessly fitted to the pole and its hollow plastic frame keeps weight to a minimum, enabling users to work faster and for longer.
